RE: **Approval of Products/Services for Listing on the GSA APL**

The Office of Management and Budget (OMB) issued M-19-17, which requires Federal Agencies to procure only qualified products and services that are compliant with OMB policy, NIST standards, and supporting technical specifications, such as those listed on the GSA Approved Products List (APL), when implementing HSPD-12 and ICAM into their environment. The procurement of approved products and services facilitates the government-wide objective of a federated and interoperable ICAM segment architecture, ensuring compliance, consistency, and alignment of commercially available products and services with the requirements and functional needs of the government ICAM implementer.

Accordingly, the FIPS 201 Evaluation Program is very pleased to inform you that the following product or service has passed testing against all applicable Testing Requirements. Please see the attached document, which summarizes the specific parameters of the approval (e.g., product/service profile, with which your product/service was tested). Your product or service will now be listed on the APL as shown below. If there are any errors in the listing information, please notify us within five (5) business days of receiving this letter.

1 Category-PACS and Validation Infrastructure (PVI)

1.1 APL Certification Number

- **APL # 10114**
 - Gallagher PIV Command Center
 - High Sec Controller 6000 - PIV
 - High Sec Controller 6000 2 Door – PIV
 - High Sec Controller 7000 - PIV

1.2 Product/Service Information

Organization Name:	Gallagher
Name of Product or Service:	PIV Command Centre
Part Number:	C201611
Hardware Version:	
Software Version:	vEL9.20
Firmware Version:	

Organization Name:	Gallagher
Name of Product or Service:	High Sec Controller 6000
Part Number:	C305101
Hardware Version:	2A0561LF-4
Software Version:	
Firmware Version:	vCR9.20

Organization Name:	Gallagher
Name of Product or Service:	High Sec Controller 6000 2 Door
Part Number:	C305111
Hardware Version:	2A0561LF-4
Software Version:	
Firmware Version:	vCR9.20

Organization Name:	Gallagher
Name of Product or Service:	High Sec Controller 7000
Part Number:	C405101
Hardware Version:	2A0855-1
Software Version:	
Firmware Version:	vCR9.20

1.3 Document History

Status	Date	Comments
Approval	3/21/2018	Approval Date for software update to EL7.80.0856 Approval date for Firmware update to GR7.80.210
Update	10/9/2019	Approval Update for Software version vEL8.10.1092 Approval Update for Firmware version vGR8.10.141
Update	05/13/2020	Update for Software version vEL8.20.1093, hardware update to vCR8.20.200221b
Update	7/16/2021	Software update and addition of Allegion readers
Correction	7/22/2021	Correction of the Allegion reader series.
Update	2/17/2022	Minor update to the software for the reader update.
Update	1/4/2023	Update for Software version vEL8.80.xxx Update for product name: High Sec Controller 6000 Update for High Sec Controller 6000 Firmware version vCR8.80.220810b Update for High Sec Controller 6000 Hardware version 2A0561LF-4
Update	07/27/2023	Update for Software version vEL8.90
Update	05/22/2025	Update Command Centre for software version vEL 9.20.1435. Update for High Sec Controller 6000 Firmware version vCR9.20. Added High Sec Controller 7000 with Firmware version vCR9.20

1.4 Restrictions:

This product has been tested and approved as a fully compliant FICAM Solution component. The agency deploying the solution is responsible for verifying that the deployment architecture (e.g., on-site, private cloud, public cloud) meets the agency's security requirements, such as those outlined in FedRAMP. The end-to-end solution components used to test the FICAM compliance of the approved solution are listed below.

- PIV Reader
 - o Gallagher High Sec T10 Reader, (APL# 10021)
 - o Gallagher High Sec T11 Reader, (APL# 10022)
 - o Gallagher High Sec T11 Reader - Multi Tech, (APL# 10023)
 - o Gallagher High Sec T15 Reader, (APL# 10101)
 - o Gallagher High Sec T15 Reader – Multi Tech, (APL# 10102)
 - o Gallagher High Sec T20 Reader, (APL# 10038)
 - o Gallagher High Sec T20 Reader - Multi Tech, (APL# 10039)
 - o Gallagher High Sec T21 Reader Rev 1 (APL# 10185)
 - o Gallagher C861600 (Veridt 900W2030-DXXXX) Bio Dual Contact/Contactless

Keypad Reader (**APL# 10186**)

o Veridt Stealth Bio Reader– (**APL# 10092**)

Approval of the above product/service indicates your cooperation with the Program and successful testing against a rigorous, comprehensive set of functional requirements derived from government-wide specifications. Testing included positive and negative test cases and threat vectors.

Given the strategic government-wide importance of the APL, the scope and extent of testing performed on your product/service, and the rigor of that testing, the Program would like to acknowledge the noteworthiness of the approval and listing. Your product or service will now be available for procurement by all federal agencies.

Please note that continued listing on the APL requires ongoing compliance with all applicable requirements, including those that may be added or amended over time. A listed product/service can become non-conformant for various reasons, including but not limited to:

- New Functional Requirements and Test Cases—The Functional Requirement and Test Case (FRTC) documents are effective immediately. All approved Physical Access Control System (PACS) solutions must pass testing against the new and revised FRTC requirements before the effective date of the new or revised requirements.
- Specific problems are discovered in a vendor's product or services (or class of products/services) after being listed on the APL. The affected vendor(s) are notified that the identified product(s) and services(s) must be improved within the time frames specified in the FRTC, commensurate with the severity level of the problem.
- Updates to testing requirements due to concerns provided to the Evaluation Program by Federal agency buyers.
- Updates to testing requirements due to vendor-provided issues in the Evaluation Program.
- A product whose last certification letter is older than 12 months and has yet to receive an APL Extension approval.

Refer to the applicable Agreements and Program documents for details regarding ongoing compliance, including severity levels and remediation timeframes. Listed products and services that fall out of conformance will be removed from the APL and added to the Removed Products List (RPL).

If you have any questions, please feel free to contact me.
